

Office of Materials and Research
Qualified Products List

The following list of **Geocomposite Wall Drains** have been evaluated by the Office of Materials and Research and have satisfied the requirements of SOP-17, "Acceptance of Miscellaneous Construction Items." These products are capable of providing free drainage behind a retaining wall while retaining fines in the backfill.

The products are composed of filter fabric and a free draining medium. The filter fabric meets the requirements of Section 881.05 for non-woven fabrics and the free draining medium provides free drainage while withstanding earth pressures against the wall.
