RE: FY 2012 Local Maintenance & Improvement Grant (LMIG) Program

As of July 1, 2011 the Department will begin taking new requests for the 2012 Local Maintenance and Improvement Grant (LMIG) Program. All requests for the 2012 LMIG Program must be submitted between July 1, 2011 & April 30, 2012. If you desire for GDOT to advertise and let your resurfacing projects, they must be submitted by August 15, 2011.

Requests must be submitted to the Local Grants Office in Atlanta with a copy to your local District Office. As a reminder, local governments will be expected to match at least 10% of the construction cost on all projects except for resurfacing/maintenance type projects. Starting with the 2012 Program any preliminary engineering expenses can now be counted toward the 10% match along with any construction item that's not part of the LMIG contract.

If you should have any questions regarding the LMIG Program please contact your District Engineer or the Local Grants Office at (404) 347-0240. Additional information can also be found on GDOT's website at www.dot.ga.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Terry L. Gable", with a long, sweeping flourish extending to the right.

Terry L. Gable
Local Grants Administrator
